ATR PROGRAM GUIDE

WELCOME

Thank you for your interest in the CyberCertify.me Authorized Training Reseller (ATR) program. This document is the ATR Program Guide and is referenced in the CyberCertify.me Reseller Agreement. This Program Guide is designed to:

- Outline the ATR program benefits;
- Provides details on the program fees;
- Outline the ATR program enrollment process;
- Detail the payout process; and
- Share information on how to use the affiliate dashboard.

PROGRAM BENEFITS

When you partner with CyberCertify.me you are actually establishing a relationship with Cyber Security Training and Consulting LLC, which is an Arizona-based veteran-owned small business committed to building and delivering innovative and affordable cyber security training to individuals and organizations.

Your partnership extends beyond the traditional business-to-business ecosystem and acts as a catalyst to helping build a bigger and brighter future for disadvantaged members of our community. When you resell our training, you are helping fund our Street-to-Cyber program, which provides free cyber security training to those who cannot afford it.

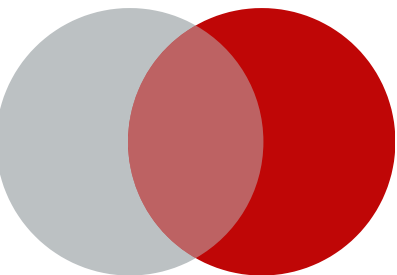

**YOU
EARN** **50%**
Minus program fees.

You read that right, we split the sale of training down the middle 50|50. How can we even offer such ridiculous commissions? It's simple, really. We are an efficiently run small business with little overhead. We don't have layers and layers of organization who want a cut of the action. Plus, we know there are fees that will be deducted.

PROGRAM FEES

Subject to change. Fee updates are communicated 30 days prior to change.

- Service Fee: 3.5%
- Processing Fee: 2.9% + \$0.30
- Transfer Fee: 3.7%
